

Photopolymer Plate Making Equipment

Processor

www.3es.com.tr

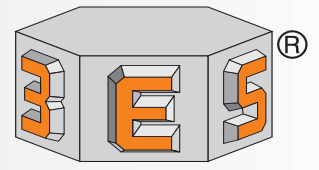

The EXCEL-W is a continuous flow-line processor for water-washable flexo plates. Consists of pre-washing, washing, rinsing, and drying sections.

The EXCEL-W is available in three sizes : 635x762 mm, 920x1200 mm, and 1067x1532 mm.

- Plate transport by pin-bar for high productivity and easy handling
- Excellent and high-quality plate washing result with a combination of oscillating round and flat brushes with 360-degree movement
- Built-in filter to remove polymer residue and re-use the washing solution
- User-friendly 7-inch touchscreen operating panel
- Plc controller
- 20-channel program memory for different types of plate
- Automatic water and detergent replenishment
- Maintenance mode-Manual plate processing mode
- Automatic thickness control from 0.60 mm up to 7.00 mm
- Integrated heater and temperature control
- Stainless steel body that is easy to operate, clean, and maintain
- External punch
